

Client/CS Team Meeting - 1/29/2020

- Addressing Engineering Requirements:
 - CS team is going to handle the 3D modeling requirement, so we will email Don and request removing it from our list of requirements
 - Either going to get rid of, or revise waterproofing requirement (or at least the 100m)
 - Need to revise the surface detection requirement
- Addressing Blocks/Ordering Parts:
 - Discussed ordering the battery enclosures, says we should order sooner than later
 - Nash isn't opposed to ordering the Sonar sensor that Matt sent out in his email this morning
- Nash was discussing how to test the 3D modeling, gave a suggestion using a stick and imaging system
